DECLARATION OF COMPLIANCE FOR MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOOD

Date: April 2013 - Rev.1

We hereby confirm that the material:

**PTFE G479**

- Comply with the requirements of the Regulation (EC) No. 1935/2004
- Comply with the relevant requirements of the Directive 2002/72/EC
- Is manufactured following the indications of Good Manufacturing Practice (GMP) as set out in Regulation (EC) No. 2023/2006
- Based on migration tests (overall migration as well as the specific migration) performed on material with simulants below identified according to the Regulation (EC) No. 10/2011, the material can be used as specified below.
- Is suitable to be used in contact with foodstuffs in accordance with U.S. legislation – FDA 21 CFR 177.1550 “Perfluorocarbon resins” and FDA 21 CFR 175.300 “Resinous and polymeric coatings”

Specifications on the intended use:

- Type(s) of food intended to come into repeated contact with the material:
  All types of food: aqueous, acidic, alcoholic, oily or fatty foodstuffs

- Type(s) of food not intended to come into repeated contact with the material:
  Not applicable

- Time and temperature of treatment and storage when in contact with food:
  Tested in Acetic Acid 3% W/v in aqueous solution (10 days at 40°C), Ethanol 50% v/v in aqueous solution (10 days at 40°C) and in Rectified olive oil (10 days at 40°C)

- Ratio of food contact surface area to volume (S/V) used to establish the compliance of the material:
  S/V = 1
The following substances subject to restriction under Regulation EC No. 10/2011 are used in the material:

<table>
<thead>
<tr>
<th>Chemical name of the substances</th>
<th>CAS No.</th>
<th>Restrictions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tetrafluoroethylene</td>
<td>0000116-14-3</td>
<td>SML = 0,05 mg/kg</td>
</tr>
</tbody>
</table>

Notes
It remains the responsibility of the customer use the plastic article manufactured from the product into the intended use, to assess the final suitability of the plastic material for the intended food contact application. i.e. checking if the physical properties of plastic material make it suitable for the intended application, checking compliance of the finished plastic article with the relevant migration limits, checking for possible influence of the plastic material on the composition and/or organoleptic properties of the contacting foodstuff, etc.

- Finished food contact articles shall be manufactured such that the surface skin(s) of semifinished product is (are) taken away.
- In accordance to GMP the food contact articles shall be thoroughly cleaned prior their first use in contact with food.
- It is the responsibility of the buyer to assure traceability of the material during any further downstream use up to and including the finished machined part as well as the equipment in which it is assembled.

Rev.0 – First issue Released in December, 2012
(1) Date of first issue. This Declaration will expire 3 years after the date of first issue

Rev.1 – Released in April 2013- FDA suitability added
