Dough Processing

Proven Success Case from CinchSeal

A well-known bakery product manufacturer was experiencing leakage and product waste issues with their dough mixer. The seal being used would also damage the stainless steel shaft which created an additional expense.

- ▶ 4 seals replaced per year at \$300 per seal = **\$1,200.00**
12 maintenance hours per year at \$22.00 per hour = **\$264.00**

650lbs of dough leakage per week at \$3.07 per pound
650 pounds x 52 weeks x \$3.07 = **\$103,766.00**

\$105,230 lost
per year due to
inefficient seals

- ▶ The consequences didn't stop there—additional costs included machine damage and disposal fees for the lost material.
- ▶ Upgrading to CinchSeal Rotary Shaft Seals eliminated these costs, demonstrating that a small investment can lead to huge benefits. saving the company over **\$120,000 annually**.

CinchSeal isn't just a shaft seal; it's a preventative strategy that protects your product, equipment, and ultimately, your brand's integrity. Ensure your operations are leak-free and cost-efficient by investing in the right solutions.
